STATISTICS ON MANPOWER EMPLOYED ON STATE FARMS IN HUNGARY, 1953-1954

Radio Free Europe, Item No 1793/55
Frankfurt, 11 Mar 1955

The following tables give statistics on manpower permanently employed on state farms in 1953 and 1954. The report appeared in a supplement to Reports of the Hungarian Institute of Economic Research (Magyar Gazdasagkutato Intezet Kozlemenyei) of 15 November 1954.

The tables give a breakdown of administrative employees and manpower according to sex and type of work performed but include only permanent employees; any person working at least 249 days during the agricultural year is considered a permanent employee. Permanent skilled workers such as mechanics, repairmen, and smiths, are listed as technical workers.

Manpower statistics of state farms, broken down by trusts, are as follows:

State Farm Trust in Transdanubia

	<u>1953</u>	<u>1954</u>
